

A modern kitchen with white glossy cabinetry and a built-in dishwasher. The dishwasher is open, revealing two racks filled with clean dishes, including plates, bowls, and glassware. A wooden cutting board with a knife is on the top rack, and several glass bottles are on the bottom rack. The countertop is white and holds a gas cooktop with a white pot, a white bowl, and some fresh herbs. The floor is light-colored wood-look laminate.

Il presente catalogo Vi viene fornito, come a tutta la nostra clientela, per Vostro esclusivo uso e pertanto non potrà essere consegnato a nessuno, nemmeno in forma ridotta, in nessun paese del mondo. Salvo eventuali deroghe, che dovranno risultare da nostro atto scritto, ogni violazione a quanto sopra sarà perseguita legalmente.

This catalogue is supplied to you, as to all our customers, for your exclusive use and consequently it cannot be given to anybody, not even in a reproduction, in any country of the world. Unless for eventual exceptions, that shall result from a written deed of ours, all violations to the above will be legally prosecuted.

Le présent catalogue vous est fourni, comme à toute notre clientèle, pour votre exclusive utilisation et par conséquent ne peut pas être donné à personne, même pas en reproduction, dans aucun pays du monde. Exclues éventuelles dérogations, qui devront résulter par de nos actes écrits, toute violation au ci-dessus sera poursuite légalement.

Dieser Katalog wird Ihnen zur Verfügung gestellt, wie all unserer Kundschaft, für Ihre persönliche und exclusive Benutzung. Daher kann er niemandem ausgehändigt werden, auch unter Form von Reproduktion, in irgenwelchem Land der Welt. Ausgenommen mögliche Abweichungen, die unter schriftlicher Form unsererseits erfolgen müssen, wird irgendwelche Verletzung vom oben-angegebenen strafrechtlich bestraft.

El presente catálogo está a su disposición, como a todos nuestros clientes, para su exclusiva utilización y no podrá ser entregado a nadie, tampoco en forma reproducida, en ningún Pais del Mundo. Con la excepción de posibles derogaciones, que resulten de nuestro acto escrito, cualquier violación a lo arriba espuesto podrá ser perseguida de forma legal.

Данный каталог предоставляется Вам, как и все нашим клиентам, в эксклюзивное пользование; не разрешается передавать его, в том числе в сокращенном виде, никаким третьим лицам ни в одну страну мира. Любые нарушения вышеуказанных ограничений, за исключением отступлений, письменно подтвержденных нашей компанией, будут преследоваться в судебном порядке.

Come and discover the world of Scavolini with your own eyes. At our authorised Dealers, you will find a wide range of products on display, along with our catalogues and a wealth of informative material.

Scavolini SpA supplies this catalogue to its clientele, who are authorised to distribute it to members of the public with no restrictions. However, it may not be given, even in copied form, to anyone in business in the fitted kitchen sector (e.g. agents, dealers, etc.) anywhere in the world. Unless authorised in writing by Scavolini SpA, all breaches of the above conditions will result in prosecution.

The colours of the materials illustrated inside this catalogue do not always match the actual hue perfectly for obvious printing reasons.

The design of Scavolini products is protected as permitted by law.

Scavolini S.p.A. has equipped its kitchens with a great number of accessories: high-tech elements which multiply the spaces and functions available, with an extraordinary variety of functional amenities providing a convenient solution to every smallest need.

The accessories and equipment which expand the functions of Scavolini kitchens are at the state of the art in terms of technologies, materials and concept, and are available for every model in a vast assortment giving the potential for thousands of different solutions, tailored to all requirements.

Scavolini has a Quality Management System in compliance with the UNI EN ISO 9001 standard, as well as an Environmental Management System in compliance with the UNI EN ISO 14001 standard. That's not all. Scavolini is also the first Italian kitchen manufacturer to have implemented a Health and Safety Management System in compliance with the OHSAS 18001 standard. All the Systems have been certified by the International Body SGS, who bestowed Scavolini with the prestigious Merit Award in recognition of the excellence achieved by the company in controlling quality, the environment and safety.

SUNLOAD

SAVE THE EARTH

Scavolini has fulfilled its aim of autonomously producing green energy for its own plants. With a total surface area of 30,000 sq m of photovoltaic panels, the system can provide an annual production of approximately 3,500,000 kWh of clean energy to cover more than 80% of Scavolini's energy demand and, when demand exceeds supply, of certified energy from renewable sources.

Scavolini has obtained the "Made in Italy" product, origin and quality certification issued by COSMOB and CATAS, the two most important testing and certification laboratories for wood-furniture in Italy. This certification declares the Italian origin of the furniture, including both the kitchen and living room range as well as Scavolini bathroom furniture.

Scavolini reserves all rights to make any changes intended to improve its products without notice. No responsibility is accepted in the event of inaccuracies in this catalogue due to printing or typing errors.

12. Anthracite finish plastic frame **W.24.7 cm - D.27 cm** for basket

Ambia Line accessories are designed to be installed freely to afford maximum customisation possibilities and, for instance, as regards the cutlery tray drawer, an empty space is always provided without taking up the entire drawer, to allow enough room for long utensils which never fit in traditional cutlery trays. Cannot be installed in lower baskets of: curved base units, base units with recessed basket and all sink base units. When inserted in baskets, we recommend you combine the spice rack (9) with the frames (12-13) to prevent it shifting inside the basket.

SCAVOLINI

1. Set of "Orga-line" stainless steel partitions for **30** cm baskets D.47.3 cm
2. Set of "Orga-line" stainless steel partitions for **45** cm baskets D.47.3 cm
3. Set of "Orga-line" stainless steel partitions for **60** cm baskets D.47.3 cm
4. Set of "Orga-line" stainless steel partitions for **90** cm baskets D.47.3 cm
5. Set of "Orga-line" stainless steel partitions for **120** cm baskets D.47.3 cm
6. Set of "Orga-line" stainless steel bottle racks D.47.3 cm.

This accessory can be installed individually in **30** cm baskets, or it may be combined with the partition to complete larger-sized baskets together with other accessories (partitions or partition sets).

7. "Orga-line" stainless steel partition D.47.3 cm.
8. Set of "Orga-line" stainless steel partitions for **90** cm basket D.47.3 cm
9. Set of "Orga-line" stainless steel partitions for **120** cm basket D.47.3 cm

10. Plastic/Stainless steel plate rack for baskets

The plate rack has continuous adjustment depending on the width of the plates (from 18.6 cm to 32.2 in diameter), total height 17 cm.

Can only be installed in "Intivo" line baskets. The accessories for baskets D.50 cm cannot be installed in lower baskets of curved base units, base units with recessed basket and all sink base units. The pack includes 2 supports for the assembly of the partitions. The accessories can be combined.

Elements pictured:

“Support” inner accessories for “Fluida” Wall System D.61.3 cm

In the clothes rack (1) the central rod holder is necessary for rods which are longer than 120 cm or loads above 15 kg. The pull-out drawer (4) has 4 aluminium sides and is supplied with infills so it can also be introduced like an inner drawer in compartments with doors, complete with anti-tipping device with built-in vertical and front adjustments. Bottom in Iron Grey decorative melamine. The shoe rack (10) is made in two pieces; it fits in easily without any fixing. Combine this article with the purchase of a Support drawer. The trouser rack (11) is supplied with infills for easy extraction. Complete with soft seal at the top of the rod so the trousers don't slip off. Rod supplied with nylon supports for easy positioning on the frame and sliding inside the drawer.

1. Clothes rack in metal and aluminium, **Metal Grey** colour (size per cm)

Height positioning of shelf

"Metro" wall system comprising:

- Anthracite SCAV 882 colour aluminium structure, 2 cm thick
- Decorative melamine shelves, 2.2 cm thick with ABS edging (L. max 270 cm - D.31.7 cm) in the following colours:
Landscape Oak SCAV 922, Concrete Jersey SCAV 878 and Concrete Harlem SCAV 880

1. 2 cm thick side panel H.97 cm

N.B.: the maximum capacity of each hanging side panel is 25 kg, or 50 kg if it is resting on the floor

2. 2 cm thick side panel H.160 cm

N.B.: the maximum capacity of each hanging side panel is 30 kg, or 65 kg if it is resting on the floor

3. 2 cm thick side panel H.235 cm

N.B.: the maximum capacity of each hanging side panel is 40 kg, or 95 kg if it is resting on the floor

4. Linear shelf L.max 270 cm - 2.2 cm thick

5. Pack of 2 infill elements for skirting board

N.B. The maximum distance between the structure centre distance is 90 cm (minimum 15 cm). For the assembly of shelves longer than 90 cm, which rest on three structures, the front profile can be disassembled to insert the shelves. The structures can be either wall-mounted or floor-standing. If the side panel is floor-standing and a skirting board is present, order a pack of 2 infill elements code 31107120 for every individual side panel in the composition.

TECHNICAL INFORMATION

COLOUR OF LIGHT IN °K

The colour temperature is expressed in units referred to as degrees Kelvin: this value determines whether the light bulbs produce warm or cold light. This diagram shows how energy-saving LED light bulbs can have different colour temperatures.

Light bulbs with a low value of degrees Kelvin produce a warm yellow light, which is more welcoming, whereas those with a higher value of degrees Kelvin produce a more energising, cool blue light.

LUMEN - WATTS

WATTS (W) indicate the quantity of energy a light bulb consumes to produce light.
LUMEN (lm) are the unit used to measure the emission and luminous intensity of a light bulb.
LED light bulbs have a luminous power (in lumen) of a classic light bulb, but with a lower wattage.

LUMENS	INC	TH	T8	LED
2000 lm	150 W		25 W	25-28 W
1600 lm	100 W	72 W	20-23 W	16-20 W
1100 lm	75 W	53 W	16-19 W	9-16 W
800 lm	60 W	43 W	13-14 W	8-12 W
450 lm	40 W	29 W	9-10 W	6-9 W
330 lm	25 W			4 W
250 lm	20 W			3 W

INC: STANDARD INCANDESCENT
TH: HALOGEN
T8: NEON
LED: LED

THE VALUES ARE TO BE CONSIDERED TO BE PURELY INDICATIVE AND VARIABLE ACCORDING TO THE BRAND AND COLOUR TEMPERATURE

CERTIFICATIONS	
	The product conforms to the essential requirements envisaged by European directives
	<p>Class II appliances, which are also referred to as double insulated, are designed not to require (and therefore they do not need to have) an earthing connection.</p> <p>They are built so that a single fault cannot cause contact with dangerous voltage levels by the user. This is generally achieved by making the casing of the container with insulating materials, or in any case ensuring that any live parts are surrounded by a double layer of insulating material (main insulation + supplementary insulation) or using reinforced insulation.</p> <p>In Europe, this kind of appliance must be marked “Class II” or with the double insulation symbol (two concentric squares).</p>
EN 62031	Sets out the general and safety provisions for light-emitting diode (LED) modules.
ENEC05	This is a European certification mark with superior technical value based on strict certification criteria. This mark offers the end user the utmost guarantee as to the procedures applied during the product manufacturing process. Since 1993, luminaires can circulate across the whole of Europe with the ENEC mark, which certifies that a product conforms to EN 60 598 regulations.
ETL Electrical Testing Laboratories	The ETL Listed mark indicates the product was tested by an accredited third-party laboratory, in compliance with the applicable product standards and the minimum safety requirements, to be sold and distributed in North America. ETL is a private independent organisation, which has been in business for over 100 years in the measurements field, and it was originally founded by Thomas Alva Edison in 1896.
PHOTOBIOLOGICAL EN 62471	Defines the risk classes, the emission limits and the absolute exposure limits for the surface of the skin and cornea.
IP International Protection	Degree of protection: the prefix IP followed by two digits indicates the resistance of the appliance to penetration by solids and liquids. The first digit indicates the resistance to the penetration of solid bodies and contact with live elements. The second digit indicates the resistance to the penetration of liquids.
IP20	Protected against the penetration of solid bodies with a diameter greater than 12 mm and not protected against liquids.
IP44	Protected against the penetration of solid bodies with a diameter greater than 1 mm and against water spray.
UL Underwriters Laboratories Inc -	This is the most popular mark testifying to the conformity of electrical and electronic items with safety regulations in USA and Canada. The UL Safety Mark is a voluntary product certification. Nevertheless, it constitutes an important distinguishing feature which signals product reliability.

Magnetic hook for plinth fastening

SCAVOLINI

Magnetic hook for plinth fastening

The characteristic of this hook is that it fastens the plinth to the feet by means of magnets. This allows you to attach/detach the plinth much more easily to make it easier to clean under the kitchen base units. It also makes it much more simple to arrange the plinth itself at the beginning. Depending on the circumstances, for the necessary quantity consider at least two magnetic hooks for every single piece of plinth and, in any case, approximately one magnetic hook per metre

Steel casing H.15 cm

For use in compositions with open-fronted feet.
